THE CORBIN LOCK BOX.

This Box was adopted by the United States General Government in February, 1888, upon the recommendations contained in a report made by a special commission of experts, which was constituted by the Hon. Secretary of the Treasury for the purpose of ascertaining and deciding which of the various boxes presented was best adapted for the purpose intended. Its construction is very different from that of any box hitherto made. The doors and frames, which are strong and stiff, are cast from the finest quality of bronze metal, in rich design and highly finished. The opening in door is large, and glazed with one-quarter inch plate glass. The numbers are plain solid black figures on a dead white silver plate, **which is inside of the box.** The sides of the box are of sheet steel finely finished and plated.

One of the greatest merits in our box is, THE LOCK ITSELF,

which is a marvelous piece of mechanism, and is pronounced by all who have seen it "**a wonderful lock.**" It is so constructed that it is not necessary to replace **it with another,** when keys are lost or not returned upon the relinquishment of a box. The keys are of flat steel and nickel plated; three keys to each lock. In any office where the ordinary lock is used there is constantly much trouble about changing locks. Suppose A rents box No. 25, taking all the keys belonging thereto, and soon leaves town without returning the keys. B will not hire the box even if the Postmaster does procure more keys, for the reason that he does not know when the other keys may turn up in the hands of dishonest parties, then the only thing to be done is to order a new lock from the manufacturer. This takes much time, causes trouble and incurs expense. With our new lock all this difficulty and annoyance is avoided, for the Postmaster can in a moment change the lock to fit the combination of any reserve key he may have, **thereby making a**

NEW LOCK.

This lock has an almost limitless combination, and is most admirably adapted for Post-office boxes in every particular. Our long experience in the manufacture of locks, together with our extensive facilities, enable us to produce the highest grade of work in that line. We have a full line of fine bronze plates for Post-office doors, windows, deliveries, letter and paper drops, direction plates, etc., etc. We are also prepared to furnish call boxes, general deliveries and every description of Post-office fixtures and furniture on short notice and at reasonable prices. "JONES, HE PAYS THE FREIGHT."

More than twenty of the best years of the life of GEN. EDWARD F. JONES, the present Lieut. Governor of the State of New York, were devoted to convincing the people of the United States that there were but two things necessary to the manufacture of a first class scale, and those two things were good workmen and the use of only first-class material. Opposed by a systematic opposition, consisting of lies and misrepresentations by the old makers, he stands to-day the proud possessor of the reputation of being the ONLY MAN TO MAKE A FIRST-CLASS SCALE AND TO SELL IT AT A FAIR PRICE. Postmasters who desire to buy scales can do so at same prices as paid by our agents.

REST.

Let us rest ourselves a bit.
Worry?—wave your hand to it.
Kiss your fingertips; and smile
It farewell a little while.

Weary of the weary way
We have come from yesterday,
Let us fret us not, instead,
Of the weary way ahead.

Let us pause and catch our breath
On the hither side of death,
While we see the tender shoots
Of the grasses—not the roots.—

While we yet look down—not up—
To seek out the buttercup
And the daisy, where they wave
O'er the green home of the grave.

Let us launch us smoothly on
Listless billows of the lawn,
And drift out across the main
Of our childish dreams again:

Voyage off, beneath the trees,
O'er the field's enchanted seas,
Where the lilies are our sails,
And our seagulls, nightingales!

Where no wilder storm shall beat
Than the wind that waves the wheat,
And no tempests burst above
The old laughs we used to love:

Lose all troubles—gain release,
Languor and exceeding peace,
Cruising idly o'er the vast
Calm mid-ocean of the past.

Let us rest ourselves a bit,
Worry!—wave your hand to it—
Kiss your fingertips, and smile
It farewell a little while
